

Florsheim Golf

FR**GS**
FLORSHEIM

A Quantum Leap in Comfort.

Since 1892, we've been crafting stylish, fine leather shoes for the businessman. Now we've taken the knowledge that only 104 years of designing shoes can give one and put it into creating a shoe specifically designed for the golfer. What we've come up with is a shoe much like the ones we already make. One that looks as good on the outside as it feels on the inside. We call them Florsheim Frogs.

And you might say, the only difference between our street shoes and our golf shoes is a couple of spikes.

A closer look at what makes a Frog a quantum leap in comfort.

It walks, it jumps, it leaps and always lands softly with high density, cushioning foam built into the heel.

When you've got ventilation ducts to keep air moving, this is one Frog that doesn't need a pond to keep cool.

Without a great tongue, a Frog just wouldn't be a Frog. That's why our tongue is well padded for extra cushioning.

Behind every Frog is a soft, cushy back. What did you expect?

Thanks to fewer seams and a zigzag stitch, this Frog's skin feels smooth, never bumpy.

Your Frogs provide a stable launching pad with Florsheim's lightweight, durable, dual density TPR sole with locking, steel spikes.

It's not webbed but the Comfortech™ contoured, cushioned foot bed absorbs shock, lessening leg and back fatigue. It's removable and washable, too.

A little wider than most, Frogs have added toe room so your feet will never feel squished.

A true amphibian, a Frog is as well suited in water as it is on land. That's why the waterproof Sympatex® membrane allows for breathability, and at the same time keeps everything on the inside dry.

Florsheim Frogs
Crafted for comfort.

From contemporary to classic designs, there's a waterproof Frog to fit comfortably in any golf setting.

Frog Professionals
Spikeless style and comfort.

*From the pro shop to the practice tee. From the
men's grill to the parking lot.*

Imperials

A classic look from heel to toe.

They may have a more traditional look, but when it comes to comfort, they're contemporary.

Club Essentials

Kick back and relax after the round.

Style and comfort for the clubhouse, your house, anywhere.
